## SPECIFICATIONS

Standard cut - 100" to 16' 8" with optional  
4' to 24' cuts

5' fold up back extension with optional  
addition 5' extension

Front axles - 20,000 lb each

Drive axles - 20,000 lb

Disc brakes on axles - air over hydraulic  
with Mico locks

3 Speed hydraulic transmission drive

21 x 73 lb. "H" beam frame with articulation

### **24000 LOADER STANDARD**

Lift Capacity - 24,000 lbs. (capacity based  
on mathematical calculations)

JD 6 cyl. 6068T engine

Automatic engine overheat and low engine oil  
pressure shutdown

30' Boom with 32' option available

2 - 6" x 48" lift cylinders

1 - 7" x 36" jib cylinder

(2) Planetary drive swing gearbox with automatic  
fail-safe brake

Non-continuous rotation with 39" turntable bearing  
with 43" option

(4) Stabilizers with 6" x 17" cylinders 24" x 24" hinge  
type stabilizer pads

90 gal. fuel tank with sump drain

Triple vane pumps 61-38-38 GPM/2100 RPM

Hydraulic oil cooler

100 gal. hydraulic system

Intank return filters absolute 10 micron

Hydraulic shutoff - main pump

Pressure check outlets on all circuits

Joy stick controls (mechanical)

Boom lights

Foot swing controls

Cab with padded insulation

Dome lights

Heater, defroster fan, windshield washer and wipers

Easy mount front stairs

Approximate weight - 48,000 lbs.

5th wheel pin for highway towing

Tandem 16.5 x 22.5

Live heel

Air conditioner

### **OPTIONS**

32000 Loader

Servo hydraulic system

Slasher extension stabilizer

Cab with forward or reverse slope windshield

28L x 26 or Dual 23.1 x 26
